

AIM AND SCOPE

The Spanish Journal of Agricultural Research publishes research articles, reviews and short communications. Research articles and short communications must report original work not previously published in any language, nor under consideration for publication elsewhere.

After peer review and approval by the editorial board, SJAR publishes papers reporting research findings dealing with all aspects on production and health in plants and animals, such as genetics, breeding, organic, biological agriculture and sustainable production systems, apiculture, aquaculture, forages and pastures, plant and animal diseases, pests and weeds, epizootiology, immunology, parasitology, physiology, reproduction, management and food technology, natural and genetic resources, agricultural economics, rural engineering and mechanization, soils, fertilization, irrigation and watering, etc.

SJAR is indexed in **Agrícola, Agris, Biosis Previews, CAB Abstracts, CAB Health, CABI full text databases, Current Contents Connect** (discipline: Agriculture/Agronomy), **FSTA** (Food Science and Technology Abstracts), **Georef, Pascal, Science Citation Index Expanded, Thomson Scientific Web of Science**. It is also included in the following automated directories: **Jake**, **Latindex Catalogue**, **Latindex Directory**, **Ulrich's Periodicals Directory**. Recognised by the Cuban Academy of Sciences.

SJAR is published quarterly (March, June, September and December) by the Spanish National Institute for Agricultural and Food Research and Technology (INIA). Autopista A-6, km 7.5. 28040 Madrid (Spain).

ALERT SERVICE

If you wish to receive via e-mail, whenever a new issue of SJAR appears, the table of contents with direct links to the respective abstracts, take advantage of our free Alert Service. To register, simply send an e-mail with the message "Subscribe SJAR" to publinia@inia.es.
